WSOF 2017

5TH WORKSHOP ON SPECIALTY OPTICAL FIBERS AND THEIR APPLICATIONS

11 - 13 OCTOBER / LIMASSOL,CYPRUS

wsof2017.org

The 5th Workshop on Specialty Optical Fiber and Their Applications (WSOF 2017) is a technical workshop and exhibit on advances and innovations in the field of specialty optical fibers and their applications. Following the four previous workshops in the series, it brings together students and researchers from academia and industry, with an interest in fiber optics.

The three day event will offer plenary, tutorial and invited talks, as well as contributed and poster papers. Industrial partners are invited to exhibit their latest technology and product offerings. Join us in Cyprus!

TOPICS

- Advances and new developments in specialty fibers
- Photonic crystal fibers, Microstructured fibers
- Fiber lasers
- Novel Materials and New Functions
- Nonlinear optics
- Special fiber components and applications
- Fiber sensors
- Industrial applications

COMMITTEES

General Chair

Dr. Kyriacos Kalli
Cyprus University of Technology, Cyprus

Technical Chair

Prof. Gilberto Brambilla
University of Southampton, UK

International Steering Committee

Prof. Philip St.J. Russell, Germany
Prof. John Ballato, USA
Prof. Liang Dong, USA
Dr. Walter Margulis, Sweden
Dr. Alexis Mendez, USA
Prof. Christiano de Matos, Brazil
Prof. Cristiano M. B. Cordeiro, Brazil
Dr. Juan Hernández-Cordero, México

IMPORTANT DATES

- Registrations Open: Apr 21, 2017
- Early Registration: Apr 21 - Sep 8, 2017
- Exhibitor Registration Deadline: Oct 2, 2017

SPONSORSHIP OPPORTUNITIES

For Sponsorship Opportunities use the following link:
