**TO WHOM IT MAY CONCERN**

As the local organizer of the “CSC2013: International Conference on Scientific Computing 2013” held from 3 - 6 December 2013, at the Annabelle Hotel in Paphos, Cyprus I would like to express my sincere appreciation and thanks to all staff of EasyConferences and their Managing Director Mr. Petros Stratis for the excellent organization, high quality of services and support provided during the preparation and throughout the course of the conference.

CSC2013 involved around 120 registered participants from several countries and Mr. Stratis and his team provided a great service with regards to the design and maintenance of the conference website, online registration of participants and organization of the conference programme and its activities (including conference welcome reception, excursion and gala dinner). Prompt and very helpful correspondence and assistance to participants for their accommodation, transportation and other needs was also provided by EasyConferences staff.

Mr. Petros Stratis and his company showed high levels of professionalism with great support, communication and cooperation. Because of the above I would strongly recommend EasyConferences to anyone interested in organizing a successful international conference.

Yours sincerely,

Professor Constantia Alexandrou  
Institute Professor  
The Cyprus Institute
