To whom it may concern

Reference letter for Easy Conferences

It is my pleasure to write a new reference letter for Mr Stratis and his company. After my previous experience in organizing CONCUR in 2014, this year I worked with Easy Conferences for organizing the 43rd International Conference on Automata, Languages and Programming (ICALP), that took place in Rome, from July 12th to 15th, 2016. The conference was successful: all the participants enjoyed the local organization and also the steering committee was satisfied by the work of Easy Conferences.

The enthusiastic opinion that I had after CONCUR has been confirmed after ICALP. Mr Stratis and his collaborators are very professional, polite and accommodating, but their best feature is their humanity: they understand every person facing them and succeed in finding the best way to approach every issue it may arise. Local and remote interactions with them have always been easy and effective. Financial matters have been carried on smoothly, with clarity and simplicity.

As I've already pointed out in my previous letter, making money is not the priority of Easy Conferences: their main goal is the satisfaction of their clients and of the people attending the conference. For all these reasons, I do recommend Mr Stratis and his company for the organization of any kind of conference, in any place of the world. I am ready to provide any further detail to anybody who may need them.

A handwritten signature in black ink, appearing to read 'Daniele Gorla'.
