11th March 2014

6th Information Retrieval Facility Conference – Limassol, Cyprus

Dear Mr Stratis,

As the chairman of the local organising committee of IRFC 2013, I would like to take this opportunity to thank you and your team at Easy Conferences for the outstanding service in co-ordinating and running the 6th Information Retrieval Facility Conference.

The services, which included the building of the conference website, the registration system, accommodation and travel arrangements, as well as the organisation of the premises were all run smoothly and in a professional manner. The feedback from both the delegates as well as the academic organisers was exceptional. The friendly, approachable team was on hand to answer questions promptly and facilitate delegates' requirements (which on some occasions were not easy) to their full extent.

The online registration system was also extremely users friendly and I have had a positive response from the delegates as to how easy it was, not only to register for the conference but to also select further options to make their stay in Cyprus more enjoyable.

As with all my previous experiences with Easy Conferences, you have again come through with flying colours. All the delegates and the organising team thank you and we look forward to working again with you in the near future.

Yours Faithfully,

Dr. Fernando Loizides
Cyprus University of Technology
